
"WELCOME TO MISS JUNIOR PAGEANT 2000 SERIES VOL 1! This is a video teaching you how to dance. You will be dancing on the stage as if you were one of the celebrities and want to dance and perform with your fellow contestants. It makes for a great performance and will impress your fellow rivals."

The Miss Junior Pageant 2000 Series is the first of many videos that teach us how to do certain dances we see in regular pageants. In this tape, we learn Dance 1 from the script. We open up to a shot of Bubblegum and Joe Joe in the studio, along with a very nice background. We hear them introduce themselves and introduce us to the video in a rhyme. They praise you for buying this video and say it will make a great addition to your collection. After watching this video several times, I can tell you that all of his dance numbers are going to be easy to follow if you have ever gone to a pageant before... if not, well, you may have trouble getting the steps down. They are really simple to follow though. The dance number consists of two parts. The first is just dancing around in a circle to the music, holding hands with your partner. Bubblegum and Joe Joe are in the background doing it for us. The second part has you doing lines to the music in a group of four or six dancers. It's extremely easy to do once you get it down... because everyone else in your group is doing it too! Very simple... I'll be honest with you guys... this is one of my favorite videos. It's very catchy and upbeat and the steps are easy. I love watching this video and I bet you will too! Bubblegum and Joe Joe teach us how to dance, while we dance along with them. They start by telling us where we can get a free printable copy of the choreography, as well as telling you what page number to look at if you're watching the video instead! Never fear... if you know what page your on, it doesn't matter if your using a printout or not. We then go into part one of the script. The whole script is quite long... which I'm sure you guys will love. We start out in a line doing kick steps to the music, which is "Rah RahRah!" by the Pussycat Dolls and Nicole Scherzinger. It's a pop/dance song and it's really catchy. We then switch over to a circle and we do grapevines with our partners around us. This is where we learn the whole dance, including the lines to do when we dance in a group... such as in pageants when they split up the girls and boys equally so they can dance together... kind of like when you see Disney Channel stars dancing in their videos together..
